

# Climate-Resilient Housing Design Challenge map

Name: \_\_\_\_\_

Group Members: \_\_\_\_\_

<b>EMPATHIZE:</b> Who/what would be the user of my prototype?	<b>DEFINE:</b> What is the design problem we are solving and why is it worth solving?	<b>DEFINE:</b> What do we want our design to do so it helps solve the problem?
<b>IDEATE:</b> What are some ideas that I have?	<b>IDEATE:</b> What are some ideas that my partners have?	<b>IDEATE:</b> What is our combined idea?

<b>PROTOTYPE:</b> What materials and tools do we need?	<b>PROTOTYPE:</b> How can I show my idea? Outline a general plan.
<b>PROTOTYPE:</b> Draw your design solution with labels and materials. Consider dimensions or measurements you would like for your prototype.	
<b>TEST:</b> What works well with your prototype? What was challenging and what would you change?
